

Robustness: Not robust
Operational range: Absent
Feature correctability: Correctable

The figure consists of two side-by-side scatter plots. The left plot, titled 'Variability', shows the relationship between the 'First element of pair (width of bins)' on the x-axis (ranging from 0.00 to 1.50) and 'Variability' on the y-axis (ranging from 0 to 100). Data points are colored in a gradient from purple to yellow. A dashed horizontal line is drawn at approximately y=10. The right plot, titled 'Correlation', shows the relationship between the 'First element of pair (width of bins)' on the x-axis (ranging from 0.00 to 1.50) and 'corr_rm' on the y-axis (ranging from 0.00 to 1.00). Data points are colored in a gradient from purple to yellow. A dashed horizontal line is drawn at y=0.50.
