# glcm JointAverage

Robustness: Conditionally robust
Operational range: Present
Feature correctability: Correctable

Feature variability and correlation against parameter across pairwise combinations of Linear-interpolated voxel sizes

Variability

Correlation

Second element of pair (Linear-interpolated voxel size, S) (mm)

Overall robustness across pairwise combinations of Linear-interpolated voxel sizes

CV (%)   corr_rm

Original

r_{rm}: 0.504 [0.482 , 0.525]
